Mowing time and lawn size based on ideal mowing conditions

# STAY CONNECTED WITH ROBOMOW

Get everything with the Robomow App via wireless connectivity from your smartphone.

### Control from your phone

- Send to mow
- Return to base
- Set mowing schedule
- Manage multiple zones
- 'Manual' drive
- Remote control

### Notifications

- Charging status
- Departure times
- Operational and security alerts\*
- Optional: Safety alert 5 min before auto-depart to enable owners to ensure children, people and pets are not on the lawn.

\* Subject to your approval, alerts will be sent as push-notifications to your mobile device.

# ALSO EXCELLENT IN THE TEST

For more than 20 years, we have been one of the most popular brands in robotic mowers. Our friendly, innovative and award-winning mowers are the first choice for lawn care. We hope you enjoy this year's lawn innovations, because we had a lot of fun developing them!

April 2021  
„The floating mowing deck and the offset blades are convincing features of this quiet robotic mower.“

July 2021  
„The RK 1000 cuts beautifully – even the edges, is easy to use and finds its way around the lawn well.“

September 2021  
„Even damp and coarse grass is cut well and uneven lawns or slopes cannot stop this robotic lawnmower.“

RT300  
RT700

\*Manufacturer's guarantee from MTD Products AG, limited to supplementary performance and according to the guarantee conditions (available at [www.robomow.com](http://www.robomow.com)).

A floating deck cuts uneven lawns flawlessly on any terrain, guaranteeing an excellent cut every time

With a 30% slope handling performance, uneven lawn surfaces are not a problem for the RT

With its patented mulch cleaner, the RT is self-cleaning, making maintenance a breeze

Whatever your lawn surface looks like, the patented high traction, all-terrain wheels can navigate it smoothly and efficiently

Thanks to its drive motor and lower gear, the quiet RT won't disturb while it mows

Tall, thick grass is easily tackled with a 60 mm maximum cutting height

Set your mower to the exact setting you want via the mobile app

If your mower stops working perfectly, the parts are so easy to replace that you can do it yourself

Specially designed cutting system delivers a great cut

# RK PRO

## CREATING A LAWN OF CHAMPIONS

The Robomow RK Pro is a true all-rounder in the garden. Its patented mowing deck not only cleans itself, but thanks to its oscillating suspension, it even provides an even cut on uneven surfaces. Also unique is the innovative edge mode for a flawless finish beyond the wheelbase. Be it a barbecue with friends or story time under the night sky with the kids, the RK Pro will ensure your lawn is ready.

Recommended lawn size: Up to 4.000 m<sup>2</sup>  
Bigger long-lasting battery of up to 9,6 Ah

### RK Pro models

- RK1000 Pro
- RK2000 Pro
- RK3000 Pro with double mowing deck
- RK4000 Pro with double mowing deck

\*Manufacturer's guarantee from MTD Products AG, limited to supplementary performance and according to the guarantee conditions (available at [www.robomow.com](http://www.robomow.com)).

Unique edge mode technology and mowing beyond the wheel

45 % slope handling performance
